Docket No.: 1322/84

Confirmation No.: 9749

For: METHODS AND SYSTEMS FOR PROVIDING MOBILE LOCATION
MANAGEMENT SERVICES IN A NETWORK ROUTING NODE

DECLARATION UNDER 37 C.F.R. § 1.131

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

We, Peter J. Marsico and Rick L. Allison, being the sole inventors of the invention claimed in the above-referenced U.S. patent application, declare as follows:

1. We conceived of the invention claimed in the above-referenced patent application of receiving signaling messages transmitted between HLR and a VLR, extracting mobile subscriber information from the signaling messages, caching the mobile subscriber information, and using the cached information in processing and routing of subsequent signaling messages transmitted by the HLR or the VLR relating to the mobile subscriber, where the steps occur in a routing node separate from the HLR and the VLR and located in a

- communication path between an HLR and a VLR, at least as early as June 14, 2001.
2. As evidence of our conception of the invention at least as early as June 14, 2001, we have attached an invoice and time records from Marsicorp, Inc. indicating time spent working on a patent application entitled, "Methods and Systems for Providing Gateway Location Register Functionality in a Network Routing Node (GLR)."
 3. The time records for Marsicorp, Inc., are for time spent by Pete Marsico in his capacity as a contractor for the assignee of the present application in preparing the draft patent application.
 4. As indicated in the time records, the draft patent application was begun on June 14, 2001.
 5. The draft patent application referred to in the time records eventually became the patent application that was filed on January 10, 2002.
 6. As further evidence of conception of the invention at least as early as June 14, 2001, we attach our attorney's time records. In the time records, the entry dated June 28, 2001 indicates that a site conference regarding the GLR occurred with Pete Marsico on that date.
 7. "GLR" refers to "gateway location register," which was a name used by the inventors to refer to the above-referenced patent application.
 8. We were duly diligent in constructively reducing the invention to practice from June 2001 until the filing of a patent application on January 10, 2002. As evidence of our due diligence between June 2001 and January 2002, we refer to

the following attachments which show that we and our attorney, Gregory A. Hunt, reviewed and revised drafts of the patent application from June 2001 until January 2002 when the application was filed:

- (a) email, invoice, and time records dated June 27, 2001 from Marsicorp, Inc. indicating time entries in June 2001 for preparing a draft of the patent application;
- (b) email, invoice, and time records from Marsicorp, Inc. dated August 18, 2001 indicating time spent in preparing the draft patent application in July and August of 2001;
- (c) time records from Jenkins, Wilson, Taylor, & Hunt, P.A. indicating time spent in reviewing, revising, and filing the patent application from June 2001 until January 10, 2002;
- (d) computer screen shot showing modification of patent application by Microsoft Word document reviewer named "Peter&Ellie" on August 12, 2001, where Pete Marsico made edits using the name "Pete&Ellie";
- (e) screen shot from WinZip file ApplicationSpec_Tekelec_GLR.zip indicating a modification date of drafts of the patent application of 10/25/2001; and
- (f) email correspondence in Fall of 2001 and January of 2002 between Pete Marsico, Greg Hunt, and Rick Allison regarding drafts of the patent application.

We hereby declare that all statements herein of our own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and

the like so made are punishable by fine or imprisonment, or both, under §1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Hey Greg,

Sorry I missed your call this evening, ... at the gym taking a break.

At any rate, ... I'll see you @ 10am tomorrow for the End Office Support mtg.

Am attaching an Invoice / Timesheet for the "Gateway Location Register" application ... still in progress (have been working with Rick on this one as well), ... will talk to you about it tomorrow, if you like.

See you tomorrow.

Pete

Greg,

Attached is another invoice and timesheet for the "Gateway Location Register" application that I have been working on for the past month or so.

It is essentially complete and should be reviewed by the appropriate inventors / reviewers at Tekelec within a week or so. I'll pass the reviewed / commented draft on to you ASAP.

Thanks,
Pete

Pete and Rick,

Hope you guys had a happy Thanksgiving. I gave thanks for Carolina's 0 and 2 start.

The GLR patent application looks good. I will email you my changes today or tomorrow and try to file on Wednesday.

Best regards,

Greg

Pete,

Can you please re-send me Rick's comments to the patent application. I reviewed and incorporated his changes into the final draft, but I accidentally deleted the marked-up copy. I just want to be sure all of the changes are covered by the claims.
